### Boards and Committees Details

5. Which boards or committees did you participate in during this reporting period?

Select all that apply.

- Community Futures Grande Prairie
- Green View Family and Community Services
- Grovedale Cemetery Committee
- Nitehawk Ski Recreation Board
- Pace Board of Directors
- The River of Death and Discovery Dinosaur Museum - Alternate

6. For each board or committee you selected above, please provide a summary and share anything of note.

List key points, updates, or noteworthy items for each selected group.

Nitehawk - New GM has handed in his resignation I believe flexible on when he leaves. His wives transfer to GP did not work out. New book keeper is a few months behind, financials are not up to date. Board still has a few positions open, looking for some fund raising talent. Bear paw driving range will likely not be open this summer as poles and netting is being replaced. Need to work on a plan to have better safety patrol on the hill the current volunteer system is not working and hill struggles to have proper coverage when school groups are at the hill during the day. Possibly need to hire a lead safety person on staff. Clubhouse need repair in several areas due to moisture issues and roof leaks. 30th Annual comedy night is scheduled for September 19 2026, at Evergreen Park.

## Community Event Details

11. Please provide a summary of the community events you attended during this period.

Include event names, dates, key activities, and any noteworthy outcomes or observations.

I attended the annual Rural Crime watch meeting in Grovedale. Matt Short from RCMP attended crime reports for the area about the same as last year. Things are working well with working together with MD Peace officers. Community safety patrols are ongoing in rural areas and RCMP are trying to visit schools more often.

I also attended the South Peace Regional Archives AGM on May 2 at their new space in Centre 2000 lower level. They were closed for a portion of last year for flood damage repairs from last years spring melt. No damages to any archives. They have a beautiful display in their entrance at this time "Meet the Trelles" 8 exhibit wall displays and 3 show case displays. Printed over 600 copies of the Telling our Stories quarterly magazine, plus many online subscribers as well. The Archives received 33 records donations in 2025 is working on data base conversion to keep up to current technology. website was viewed 61,959 times by 16,000 individuals in 2025. Archived records reached approx 30,000 people this year. Facebook reach 181,166 and Instagram 2359.
